

CONTENTS

Keynote papers

Ice conditions influence on the design and construction of ice-resistant structures for oil and gas production on the arctic shelf. <i>E. N. Bellendir, M. G. Gladkov</i>	VII
--	-----

Ice jams forecast and technologies of their destruction on the rivers of the Russian Federation. <i>M. A. Shahramanjan</i>	XXVII
---	-------

Session A. Ice mechanics and forces

A qualitative analysis of velocity effects of ice load on narrow conical structures. <i>F. Li, Q. Yue, X. Bi</i>	1
Sea ice – vertical pile interaction experiment, part I: test set-up and ice properties. <i>P.O. Moslet, P. Liferov, R. Nilsen, K.V. Høyland, M. Bjerkås, B. Bonnemaire, J. Dybdahl, S. Løset</i>	11
Sea ice – vertical pile interaction experiment, part II: test results 2003. <i>P.O. Moslet, K.V. Høyland</i>	17
The simulation sea ice pile-up on inclined structure. <i>C. Li, Y. Wang, H. Sun, Z. Li</i>	23
A stochastic model for the dynamic interaction between ice and offshore structure. <i>Y. Qu, Y. Wang</i>	31
Local ice pressure distribution acting on offshore structure. <i>T. Takeuchi, S. Akagawa, N. Nakazawa, S. Kioka, H. Saeki</i>	37
In-situ ice ridge scour tests. <i>P. Liferov, P.O. Moslet, R. Nilsen, K. Høyland, S. Løset</i>	45
Mechanical properties of unconsolidated layer model of ice ridge under various conditions. <i>S. Kioka, Y. Matuo, H. Kondo, Y. Yamamoto, H. Saeki</i>	53
New schemes of accounting ice ridging in models of sea ice cover dynamics. <i>A. Makshatas, A. Marchenko, S. Shutilin</i>	61
Mechanical properties of ice ridges and level ice, in-situ and laboratory testing 2003. <i>Knut V. Høyland, Morten Bjerkås, Sergey Vernyayev</i>	69
Experimental investigation of interaction of moored platforms with drifting ice features. <i>O. N. Bezzubik, A. V. Bitsulya, E. B. Karulin, M. M. Karulina, N. Y. Klementyeva, K. I. E. Sazonov, V. A. Chernetsov, A. V. Kulakov, V. V. Kupreev</i>	76
Mathematical model for motion of moored platform interacting with ice. <i>E. B. Karulin, Marina M. Karulina, K. E. Sazonov, V. A. Chernetsov</i>	85

Preliminary results of ice indentation test using consolidated layer model of fresh-water ice. <i>T. Takeuchi, M. Sasaki, K. Miura, S. Kioka, H. Saeki</i>	93
Evaluation of loads due to partial freezing of seawater trapped in enclosed cavities. <i>N. V. Koubyshkin, K. E. Sazonov</i>	100
Determination of pack ice stress from flatjack stress sensors. <i>M. D. C., Douglas C. E., G. S. Knoke</i>	108
Ice ridge-structure interaction, part I: geometry and failure modes of ice ridges. <i>B. Bonnemaire, M. Bjerkås</i>	114
Ice ridge-structure interaction, part II: loads from ice ridges and their surrounding ice sheets. <i>M. Bjerkås, B. Bonnemaire</i>	122
Experimental investigations of vertical ice loads on piles. <i>F. Weichbrodt, C. Dede, J. Radomski, S. Kohlhasse</i>	130
Preliminary results of yield criteria of pack ice and their impact on the orientation of linear kinematic features. <i>K. Wang</i>	135
Application FEA for calculation of loading on an isolated structure from an ice cover at increase of temperature of ice. <i>A.B. Ivchenko, S.P. Vasiliev</i>	144
Ice-resistant withdrawal construction. <i>V. N. Zhilenkov</i>	149
Paint coatings with higher hydrophobicity for protection against ice accretion. <i>E. F. Itsko, A.S. Drinberg, L. G. Sidorova, N. A. Novoselova</i>	154

Session B. Ice in rivers, lakes, reservoirs and seas

Numerical algorithms and program complex for flow and dynamics simulation of ice-thermal processes in open reservoirs. <i>V.A. Prokofyev</i>	159
River ice model coupled hydrological modeling in the Lena river basin. <i>X. Ma, T. Yasunari, T. Ohata, Y. Fukushima</i>	171
Ice phenomena on the river Amur. <i>A.A. Verhoglydov, V.K. Debolsky, D.V. Kozlov</i>	178
Two-dimensional model of river-ice processes using boundary-fitted coordinate. <i>Z. Mao, L. Zhang, G. Yue</i>	184
Analysis and simulation of sea ice draft profile on Okhotsk sea coast of Hokkaido. <i>S. Kioka, Y. Yamamoto, D. Honma, M. Sakikawa, S. Sakai</i>	191
An oriented thickness distribution for sea ice. <i>M. D. Coon, G. S. Knoke, D. C. Echert, R. S. Pritchard</i>	199
The application of PIV to measurement of sea ice. <i>H. Sun, Y. Shen, D. Qiu</i>	205
On the annual variation of characteristics of snow and ice in lake Saroma. <i>T. Kawamura, K. Shirasawa, M. Ishikawa, T. Takatsuka, T. Daibou, M. Lepparanta</i>	212

Analysis methods of ice images during the second Chinese National Arctic Research Expedition. <i>Z. Li, P. Lu, X. Dong</i>	221
Scattering of oblique ice-coupled waves by a pressure ridge. <i>T. D. Williams</i>	227
The methodical recommendations for the passing of ice through the constructing hydraulic engineering structures. <i>I.N. Shatalina, A.M. Shvainshtein, M.G. Gladkov</i>	235
Dynamics of ice jam release surges. <i>L. Liu, H. T. Shen</i>	244
Anchor ice and water exchange in the hyporheic zone. <i>E.W. Kempema, S.K. Konrad</i>	251
An experimental study on snow and superimposed-ice formation on sea ice. <i>T. Kawamura, O. Matsubaya, A. Sato, Y. Kamata</i>	258
Summer ice concentration comparison of in situ and satellite data in the Ross Sea, Antarctica. <i>M. A. Knuth, S. F. Ackley</i>	268
Study on the characteristics of ice formed in region of heavy snows. <i>K. Takahashi, N. Usami, T. Shibata, N. Otsuka, T. Terashima, H. Saeki</i>	275
Experimental study on frazil ice control systems for water intakes. <i>N. Usami, T. Ueda, K. Takahashi, Y. Hayama, H. Saeki</i>	283
A laboratory study of frazil ice size distributions. <i>S. Clark, J.C. Doering</i>	291
Observations of ice flow condition on the river Vychegda. <i>A. A. Kosarev</i>	298
Free surface drawdown at entrances to wasteways. <i>A.M. Shvainshtein</i>	302
The determination of the equivalent ice thickness using performance data of MT UIKKU and ice thickness maps. <i>S. Hänninen</i>	309
Ice cover thickness due to wave rafting. <i>M. Dai, H. H. Shen, M. A. Hopkins, S. F. Ackley</i>	319
A laboratory study of wave attenuation in a pancake ice field. <i>O. Negbenebor, H. H. Shen, S. F. Ackley</i>	327
Weakened ice cover on reservoirs, information through the internet via NVE-atlas. <i>R. P. Asvall</i>	334
Morphology of river and lake ice. <i>A. Levashov, I. Levashova</i>	339
Sub-Daily flaw polynya dynamics in the Kara Sea inferred from spaceborne microwave radiometry. <i>S. Kern</i>	345
Winter offshore loading operability rate in the Pechora Sea. <i>B. Bonnemaire</i>	353

Problems of mathematical modeling of dynamics of sub-ice fluxes. <i>E. Debolskaya, V. Debolsky</i>	361
The computer model of formation of an ice jam at the Lena river. <i>V.V. Belikov, A.A. Zaitsev</i>	371

Session C. Ice-water-atmosphere interactions

Freezing of water in an open channel flow under supercooled ambient conditions: preliminary results. <i>A. R. Karev, M. Farzaneh, L. Kollár, S. Vaslon</i>	379
Meteorological observations and method for estimation of ice production rate in fish port of Hokkaido during winter season. <i>S. Kioka, D. Honma, Y. Yamamoto, M. Nishida, T. Terashima</i>	385
A portable calorimeter for measuring liquid fraction of spongy freshwater ice accre- tions. <i>R. Z. Blackmore, E. P. Lozowski, M. Farzaneh</i>	393
Some pending problems in river ice research. <i>E. Tesaker</i>	400
Properties of thick sea ice and overlying snow in the southern sea of Okhotsk. <i>T. Toyota, S. Takatsuji, K. Tateyama, M. Nakayama, K. Naoki, K. I. Ohshima</i>	406
New dynamic aspects of contemporaneous concepts in atmospheric icing modeling. <i>A. R. Karev, M. Farzaneh, L. Kollar, S. Vaslon</i>	413
Sea ice effects on the local climate of the surrounding land. <i>N. Ishikawa, Y. Kodama, T. Kawamura, K. Shirasawa</i>	419
Sea ice properties and under ice hydrography in a sheltered brackish water basin. <i>J. Uusikivi, K. Shirasawa</i>	429
Glaciers of central Asia: past, present and future. <i>M. A. Sattarov</i>	435
Helicopterborne multi-frequency, multi-polarization scatterometer measurements during ARK XIX/1. <i>S. Kern, M. Gade</i>	441
A study on ice processes for the water diversion project from south-to-north during the winter reason. <i>P. Gao, G. Jin, B. Lu</i>	449
Fish habitat under ice cover in regulated rivers. <i>E. Dolgoplova</i>	455

Session D. Ice ecology and management

Long-term modeling of water quality for stagnated water area in snowy cold re- gions. <i>M. Nakatsugawa, Y. Hamahara</i>	461
Relationship between overwintering locations of cherry salmon and bed configura- tion in ice-covered rivers.	

Session E. Navigation in ice-covered waters

Preliminary results of ship maneuvering in ice experiments using a planar motion mechanism.

M. Lau, J. C. Liu, A. Derradji-Aouat, F.M. Williams

479

Full-scale experience of double acting tankers (dat) Mastera and Tempera.

G. Wilkman, K. Juurmaa, T. Mattsson, J. Laapio, B. Fagerström

488

Model tests for ice class tankers.

G. Wilkman, K. Juurmaa, T. Mattsson

498

Prospects of winter navigation in Sayano-Shushenskoe HPS reservoir.

M.A. Kolosov, V.V. Vasiljevskiy

504
