7. Contributing to the strategic plan

The IAHR technical committee on Education and Professional Development organized the 1st Yong Professional Congress to globally encourage the researchers to interact each other so that the synergy makes our works get better. As a part of the community, we presented our key works through the webinar and had a communication with the mentors and peers from abroad. This activity was great opportunity to broaden our research horizon. These our efforts will contribute to the IAHR's purpose to provide the international network.
