

IAHR POLAND YOUNG PROFESSIONALS NETWORK

2022 Annual Report of Activities

Poland
**Young
Professionals
Network**

1. Our vision and mission

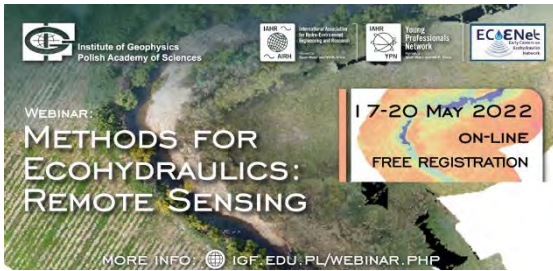

IAHR Poland YPN gathers PhD students and early career researchers with the aim to revitalise the Polish community of water-environmental scientists and practitioners.

2. Main goals and key objectives in 2022

Our mission is to offer a fresh perspective on water-related issues, with some focus on the Polish environment. Our aim is to promote awareness of hydro-environmental issues and create a roundtable for ideas and innovation, knowledge exchange and collaboration involving the youth in the process.

- Recruit new members and involve Polish young academics and professionals in IAHR.
- Get involved in IAHR gatherings and promote them among our members and the Institutes we are employed in.
- Prepare the transition of the Executive Committee from founding members to a new team, to ensure sustainability of the network and its activities.
- Promote our YP initiatives and IAHR activities on social media.

3. Activities in 2022

	Webinar on Methods for Ecohydraulics: Remote Sensing
	Date/s 17-20 May 2022
	Venue Online
	Objectives Through keynote lectures and technical sessions, the event aimed to showcase innovative monitoring tools across spatio-temporal scales in ecohydraulics. Daily roundtable discussions further helped to foster transdisciplinary collaborations. The webinar served also as an input to the Special Issue in the Journal of Ecohydraulics
