

IAHR HELLENIC YOUNG PROFESSIONALS NETWORK

2022 Annual Report of Activities

Hellenic
**Young
Professionals
Network**

1. Our vision and mission

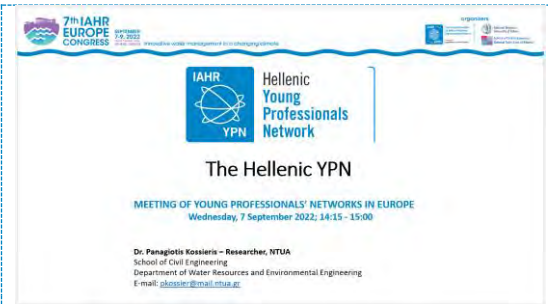

The IAHR Hellenic Young Professionals Network was established in April 2022 to bring together young researchers and professionals, working in the field of water resources. The early network composition numbers more than 20 members from Greek universities and companies, as well as PhD students. The goal of the Hellenic YPN is to facilitate interaction and collaboration among its members at national level, as well as with other YPNs and international networks. Key priority of the network is to foster experience and knowledge transfer on challenging water management problems, through active engagement of members in technical committees, working groups and activities of the IAHR.

2. Main goals and key objectives in 2022

The key goal and objectives of the newly established Hellenic YPN are to:

- To increase interaction and collaboration between the members of the YPN
- Engage more people to increase the number of members at national level
- Increase digital visibility via social media
- Establish communication with the other YPNs
- Support the organisation of the [7th IAHR Europe Congress](#) in Greece
- Organise workshops for knowledge sharing on water-related problems and state-of-the-art solutions

3. Activities in 2022

	Title of the activity Meeting of YPNs in Europe in the framework of 7th IAHR Europe Congress Introduction of IAHR Hellenic YPN Date/s 7 September 2022 Venue 7th IAHR Europe Congress, Athens, Greece Objectives Introduction and promotion of IAHR Hellenic YPN to IAHR and IAHR YPNs
---	--

	community. Presentation of our objectives and goals, leadership team and future activities.
	<p>Description</p> <p>Introduction of the IAHR Hellenic YPN to IAHR and IAHR YPNs community. Presentation of our objectives and goals, leadership team and future activities.</p>

 <p>RESEARCH AND INNOVATION FOR SUSTAINABLE HYDRO-ENVIRONMENT PROJECTS</p> <ul style="list-style-type: none"> ✓ How do engineers design and manage nowadays hydro-environment projects? ✓ Are research and innovation important in this design and management procedure? ✓ Are hydro-environment projects currently sustainable? ✓ Were hydro-environment projects sustainable in the ancient world? <p>Presentations and discussion Listen to the presentations of three experts in this field, meet them and discuss with them your ideas</p> <p>When: Wednesday, 7 September 2022, 17:30 - 18:15</p> <p>Where: Venue of the Congress</p> <p>Program</p>	<p>Title of the activity</p> <p>Organization of “Research and Innovation for sustainable hydro-environment projects” session in the framework of 7th IAHR Europe Congress</p>
	<p>Date/s</p> <p>7 September 2022</p>
	<p>Venue</p> <p>7th IAHR Europe Congress, Athens, Greece</p>
	<p>Objectives</p> <p>Dissemination of optimal and sustainable practices for hydro-environment projects.</p>
	<p>Description</p> <p>During this session, three experts from scientific, engineering and water utility domain presented, and discussed about, iconic ancient and</p>

	modern practices for sustainable hydro-environment projects.
