

Proceedings of the 40th IAHR World Congress

Rivers – Connecting Mountains and Coasts

**21 – 25 August 2023
Vienna, Austria**

Edited by
**Helmut Habersack
Michael Tritthart
Lisa Waldenberger**

Hosted by
**Spain Water
and IWHR, China**

The papers included in this volume were part of the 40th IAHR World Congress (2023) cited on the cover and title page.

All papers follow a review process that consist of:

Set up by the ISC of technical criteria for the Committee in charge of the revision.
Submitted papers are sent to one or two experts in the field.
Authors are asked to include the necessary amendments and follow the reviewers' comments.
Revision until the final approval by the ISC.

The review process has been publicly available.

The papers published in these proceedings reflect the work and thoughts of the authors and are published here-in as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Proceedings of the 40th IAHR World Congress - 2023
"Rivers - connecting mountains and coasts"

The monitoring of publishing ethics is a major aspect of editorial and peer-review publications. IAHR is a well-established and long-standing organization whose primary mission is to foster knowledge exchange amongst its community and stakeholder base. Accordingly, IAHR takes its policies on ethics seriously. The Proceedings of the 40th IAHR World Congress (2023) has been published under the IAHR Publications Ethics and Malpractice Statement.

IAHR, founded in 1935, is a worldwide independent member-based organisation of engineers and water specialists working in fields related to the hydro-environmental sciences and their practical application. Activities range from river and maritime hydraulics to water resources development and eco-hydraulics, through to ice engineering, hydroinformatics, and hydraulic machinery.

IAHR consists of two offices: Madrid Office, Spain and Beijing Office, China.
