

IAHR Tianjin University Young Professionals Network

2023 Annual Report
of Activities

**Young
Professionals
Network**

Hosted by
Spain Water and IWHR, China

1. Our vision and mission

IAHR Tianjin University Student Branch was established in 2011. It is a platform for academic exchanges among postgraduates majoring in hydraulic engineering and one of the important channels for the integration of hydraulic engineering at Tianjin University with international exchanges. Branch activities are divided into internal communication and intercollegiate interactions. Internal communication mainly includes new and old member exchange meetings, scientific and technological writing exchange meetings, special reports of domestic and foreign experts, and the doctoral forum of the IAHR Tianjin University Student Branch. Intercollegiate interactions mainly include the Hydraulics and Hydraulic Informatics Conference, the Tsinghua University doctoral academic forum, the IAHR China branch executive committee meeting, the IAHR Chinese Academy of Hydraulic Sciences student branch meeting and general assembly, and the international hydraulic conference.

2. Main goals and key objectives in 2023

The Second IAHR-YPN Doctoral Student Forum can be successfully held and recruit new YPN members at Tianjin University.

3. Activities in 2023

[Please include as many as necessary]

The Second IAHR-YPN Doctoral Student Forum

Date/s

8 July 2023 – 9 July 2023

Venue

Nanjing, China

Objectives

Through the form of academic exchange activities, The Second IAHR-YPN Doctoral Student Forum

broadened the knowledge field of graduate students, improved their scientific research and innovation ability, promoted interdisciplinary integration, and strengthened the learning exchange, communication, and cooperation between brother universities. (e.g., *Delivering opportunities for professional development, raising awareness about water issues, motivating membership, etc.*)

Description

The forum adopts the mode of the intersection of the academic report and discussion and exchange speech, aiming at creating a lively, free, and dialogue academic exchange atmosphere. Our delegates from TJU-YPN attended the forum and got good achievements. Each delegate, through the guided report, drives the heated discussion on the spot of the special report, guides the young scholars of water conservancy on the spot to speak enthusiastically, and carries out in-depth and extensive discussions and exchanges based on the report.

4. Partnerships and collaborations

4.1. Partnerships

[Please include a list of partner organisation/s and a description of the partnership]

4.2. Collaboration with other YPNs

IAHR Hohai University Young Professionals Network

IAHR Dalian University of Technology Young Professionals Network

IAHR Nanjing Hydraulic Research Institute Young Professionals Network (IAHR NHRI YPN)

IAHR Wuhan University Young Professionals Network

IAHR Sichuan University Young Professionals Network

IAHR Xi'an University of Technology Young Professionals Network (IAHR-XUT-YPN)

IAHR IWHR Beijing Young Professionals Network

IAHR Northwest A&F University Young Professionals Network

IAHR Tsinghua University Young Professionals Network
