## 1. Our vision and mission

IAHR IWHR YPN established was established on April 12, 2011. During the period of more than twelve years, the executive committees and members have been committed to the development of IAHR IWHR YPN. On the one hand, we continue to create more learning opportunities for members, and on the other hand, we have also organized some activities to strengthen cohesion. Currently, there are 280 members of IAHR IWHR YPN, covering master students, doctoral students, and some young professionals.

IAHR IWHR YPN is committed to providing a good communication platform, enabling students to broaden their horizons, increase communications, and show themselves among graduate students, various universities, and on the international stage. We are committed to making efforts for the majority of young professionals to improve their scientific research and keep up with the frontiers and development trends of their professional areas.

## 2. Main goals and key objectives in 2023

In order to make participants more active. So the main objective was to provide services that they were interested in, such as communication activities and academic guidance for graduate students and young professionals, combining the discipline characteristics and training goals of IWHR.
