

IAHR [YPN Venezuela] Young Professionals Network

2023 Annual Report
of Activities

**Young
Professionals
Network**

Hosted by
Spain Water and IWHR, China

1. Our vision and mission

Officially created the May 6, 2019, the YPN Venezuela is composed of 9 members (young professionals) all professionals in the hydro-environment engineering sector. Due to complex conditions in our home country, some of us are currently living in different regions of the world (Argentina, USA, Chile, France, Sweden and Venezuela). This particularity of our YPN makes it an innovative initiative that seeks to adapt to today's challenges and enables us to strengthen our links as young Venezuelan professionals living around the world. The creation of the YPN Venezuela is a great opportunity for us to stay connected to the hydro-environment sector worldwide and also provides us with many advantages to continue our professional development. All the members of the YPN Venezuela are honored to be a part of the IAHR and are looking forward to contribute to the development of the IAHR YPN community.

2. Main goals and key objectives in 2023

Increase the number of members studying in Venezuelan universities. This aims to ensure the continuity of the Young Professional Network, strengthen the contact between the members in Venezuela, and overcome the challenges of originating by being a network with members living in different parts of the world.

Specific actions taken to achieve this objective included:

1. technical talks were organized intending to give space to the newest and/or youngest members of the YPN Venezuela to share their professional experience and get feedback from their peers.
2. Increase the number of publications on social Media aiming to increase the visibility of YPN Venezuela.

3. Activities in 2023

Activity N°1

 <p>WEBINAR INTERACTIVO "CONVERSACIONES FLUIDAS"</p> <p>ING. GIAN FRANCO MORASSUTTI</p> <p>EXPERIENCIAS EN EL COMPORTAMIENTO DE LAS OBRAS DE MITIGACIÓN DE RIESGO EN VARGAS - VENEZUELA 20 AÑOS DESPUES</p> <p>MODERADORA: ING. DAYANA PITA</p> <p>VIERNES 20 DE ENERO 5:00 P.M. - HORA VENEZUELA (GMT - 4 H)</p> <p>Link de inscripción: https://forms.gle/Yia8xigzrASKrANL7 Contacto: ypn.venezuela.iahr@gmail.com</p> <p>IAHR Venezuela Young Professionals Network, Sociedad Venezolana de Ingeniería Hidráulica, and the Venezuelan flag are also visible.</p>	<p>"Conversaciones Fluidas 20"</p> <p>Date/s 20 January 2023</p> <p>Venue Online</p> <p>Objectives <i>The main objective of this activity was to publicize the measures carried out in Venezuela in the tragedy that occurred in the state of Vargas, where a series of landslides occurred, for which the construction of works to reduce risks in the future was necessary. During the activity, the behavior of the structures built is shown, 20 years after the tragedy</i></p> <p>Description Eng. Gian Franco Morassutti "Experiences in the performance of risk mitigation works in Vargas - Venezuela 20 years later."</p>
--	--

Activity N°2

**WEBINAR INTERACTIVO
"CONVERSACIONES FLUIDAS"**

Ph. D. Daniel Valero

**NUEVAS METODOLOGÍAS PARA LA MEDICIÓN DE
FLUJOS TURBULENTOS EN SUPERFICIE LIBRE**

MODERADOR: ING. AUGUSTO ZAPATA

**JUEVES 23 DE FEBRERO
6:00 P.M. - HORA VENEZUELA (GMT - 4 H)**

Link de inscripción:
<https://forms.gle/6LmZY98P1ss92yYWA>

Contacto: ypn.vnzuela.iahr@gmail.com

IAHR YPN Venezuela Young Professionals Network
Sociedad Venezolana de Ingenieros Mecánicos (VIMEC)

"Conversaciones fluidas 21"

Date/s

23 February 2023

Venue

Online

Objectives

Ph. D. Daniel Valero presents methods to estimate drafts (water depths), methods to estimate velocities, and experimental methods in multiphase flows and, shares some experiences from an investigation of the transport of plastics in rivers, being the first to measure how it is the movement of this material in turbulent flows.

Description

Ph. D. Daniel Valero

"New methodologies for measuring turbulent flows on free surfaces."

Activity n°3

WEBINAR "EXPERIENCIAS DE JÓVENES PROFESIONALES"

IAHR YOUNG PROFESSIONALS NETWORK

RED DE JÓVENES PROFESIONALES DE VENEZUELA DE LA IAHR

"MAPA HIDROGEOQUÍMICO Y DE CALIDAD DE LAS AGUAS SUBTERRÁNEAS DE LA ISLA DE MARGARITA, VENEZUELA"

SÁBADO 29 DE ABRIL
11:00 A.M. HORA VENEZUELA (GMT -4 H)

ZOOM:

TD DE REUNIÓN: 889 2213 8978

CÓDIGO DE ACCESO: Z2YHDG

U.C. ANA VÍLCHEZ DOMÍNGUEZ

"Experiencias de Jóvenes profesionales"

Date/s

29 April 2023

Venue

Online

Objectives

To facilitate the identification of the composition, as well as the chemical quality of groundwater throughout the inventoried basins in the State of Nueva Esparta, the purpose of this research work is to: Prepare the hydrogeochemical and quality map of the groundwater of Margarita Island, Venezuela.

The main objective of the activity was to share the results of a degree thesis evaluating the quality of groundwater in the Margarita region, Venezuela, and to motivate young people to use these results to carry out future research.

Description

Degree in Geochemistry Ana Vílchez.
"Hydro geochemical and groundwater quality map of Margarita island, Venezuela."

Activity n°4

WEBINAR INTERACTIVO
"CONVERSACIONES FLUIDAS 22"

Lic. Frank Zambrano

DESARROLLO DE UN PROYECTO DE APROVECHAMIENTO DE AGUAS SUBTERRÁNEAS

MODERADORA: LIC. ANA VILCHEZ

MARTES 23 DE MAYO
6:00 P.M. - HORA VENEZUELA (GMT - 4 H)

Link de inscripción:
<https://forms.gle/bzYJ2hXN1Vak0dCq8>

Contacto: ypp-venezuela.lator@gmail.com

IAHR YPN, Venezuela Young Professionals Network, Sociedad Venezolana de Ingenieros Hidráulicos (Sociedad de Ing.)

"Conversaciones fluidas 22"

Date/s

23 May 2023

Venue

Online

Objectives

Explain each of the stages necessary to carry out a Groundwater Use Project, starting with the client's needs, incorporating the studies before drilling the well, drilling and construction of the well, as well as pumping tests, equipment, evaluation of water quality, and design of treatment systems.

Description

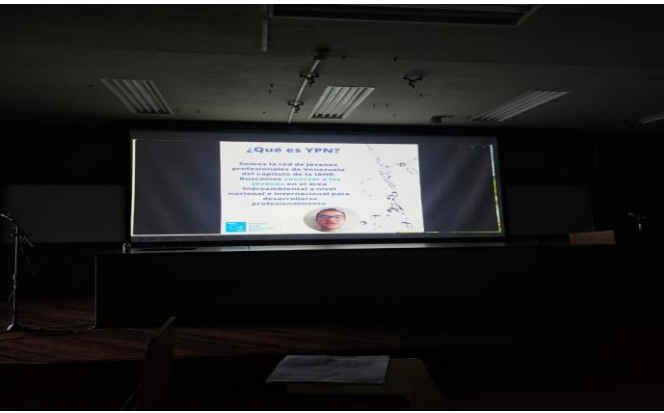

Degree in chemistry. Frank Zambrano.

"Development of a groundwater use project"

Activity n°5

 <p>Venezuela Young Professionals Network</p> <p>IAHR YPM</p> <p>Sociedad Venezolana de Ingeniería Hidráulica Fundada en 1967</p> <h3>WEBINAR INTERACTIVO "CONVERSACIONES FLUIDAS"</h3> <h4>CENTRAL HIDROELÉCTRICA KHOBII-II, DESAFÍOS TÉCNICOS</h4> <p> Ing. Rodrigo Suárez INGENIERO HIDROELÉCTRICO</p> <p> MARTES 26 DE JULIO 0:00 P.M. - HORA VENEZUELA (GMT - 4 H)</p> <p>Link de inscripción: https://forms.gle/q2DhkUdbpy5V28Mr5 Contacto: ypm-venezuela.iahr@gmail.com</p>	<p>"Conversaciones fluidas 23"</p>
	<p>Date/s</p> <p>25 July 2023</p>
	<p>Venue</p> <p>Online</p>
	<p>Objectives</p> <p><i>The objective of this activity was to illustrate the technical challenges faced during the construction of a hydroelectric plant located in Georgia, Europe, whose installed power capacity is 47MW, design flow rate of 21m³/s, and 255m net head.</i></p>
<p>Description</p> <p>Eng. Rodrigo Suárez. "Khobi-II Hydroelectric Power Plant, Technical Challenges".</p>	

Activity n°6

	<p>“Experiencia de jóvenes profesionales”</p>
	<p>Date/s 4 August 2023</p>
	<p>Venue Online</p>
	<p>Objectives <i>During this event organized by students from the Central University of Venezuela (UCV), a video made by members of the YPN Venezuela was shown, inviting them to join the network and share experiences related to the hydro-environmental field.</i></p>
	<p>Description Las Majaguas Reservoir Forum, Portuguesa State, Venezuela; with the title: "From the Venezuela of progress to the Possible Venezuela" Different speakers participated. Hydraulics: Prof. Sergio Silva and Bro. Sebastián Cova Hydrology: Prof. Carmelo Gil and fr. Marisol Peaspan</p>

	<p>Water Quality: Bro. Héctor González and Bro. José León</p> <p>Minaguas Ing. Juan Lizcano</p> <p>The event was held in the Physics Auditorium of the Faculty of Engineering of the Central University of Venezuela.</p>
--	---

Activity n°7

	<p>“Experiencia de jóvenes profesionales”</p>
	<p>Date/s</p> <p>29 August 2023</p>
	<p>Venue</p> <p>Online</p>
	<p>Objectives</p> <p><i>During the activity, the functioning of different NGOs in Venezuela was illustrated.</i></p> <p><i>Different cases are shown related to water, sanitation, and hygiene as an element of humanitarian aid in Venezuela, whose country has gone through a strong political, economic, and social crisis in the last decade.</i></p>
	<p>Description</p> <p>Eng. Henry Sarmiento</p> <p>“Water, sanitation and hygiene as an element of humanitarian aid in Venezuela.”</p>

Activity n°8

 <p>Venezuela Young Professionals Network</p> <p>MHR YPV</p> <p>Sociedad Venezolana de Ingeniería Hidráulica Fundada en 1967</p> <p>WEBINAR INTERACTIVO "CONVERSACIONES FLUIDAS"</p> <p>ASPECTOS GENERALES SOBRE TRANSPORTE DE PULPAS MINERALES, CON ÉNFASIS EN LA PRÁCTICA PROFESIONAL</p> <p>M.Sc. José Adriasola V. INGENIERO HIDRÁULICO</p> <p>MARTES 28 DE SEPTIEMBRE 8:00 P.M. - HORA VENEZUELA (GMT - 4 H)</p> <p>Link de inscripción: https://forms.gle/cx0HTqD0aYiTXAV96 Contacto: ypn.venezuela.iah@gmail.com</p> <p>MODERADOR: BR. SEBASTIÁN COVA</p>	<p>"Conversaciones fluidas 24"</p>
<p>Date/s</p> <p>28 September 2023</p>	
<p>Venue</p> <p>Online</p>	
<p>Objectives</p> <p><i>Origin and destination of mineral pulps, the design criteria for free surface transportation and pressurized conduits, and the materials used in each case.</i></p>	
<p>Description</p> <p>M.Sc José Adriasola V. "General aspects about the transportation of mineral pulps, with emphasis on professional practice."</p>	

Activity n°9

“Experiencias de jóvenes profesionales”

Date/s

8 November 2023

Venue

Online

Objectives

The activity illustrated the construction process of a hydroelectric plant, showing some details of physical models where the behavior of the structures that compose it is evaluated. Different construction methodologies used during each phase of construction were also shown.

Description

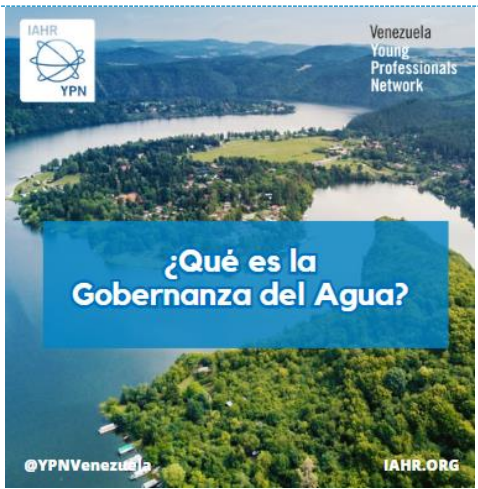

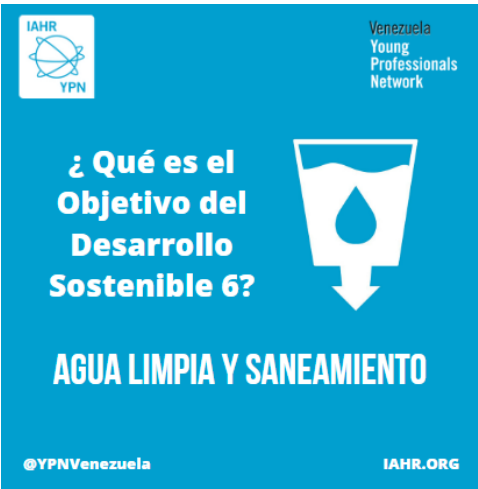

Eng. Dayana Pita.

“Virtual tour of the construction of a hydroelectric plant”.

Activity n°10

	<p>“Asamblea General”</p>
	<p>Date/s</p> <p>21 January 2023 14 August 2023</p>
	<p>Venue</p> <p>Online</p>
	<p>Objectives</p> <p><i>Organize the activities of the year and give the floor to the new members of the YPN.</i></p>
<p>Description</p> <p>General Assembly</p>	

Activity n°11

	<p>Posts on Instagram</p>
	<p>Date/s</p>
	<p>2023</p>
	<p>Venue</p>
	<p>Online - Instagram</p>
	<p>Objectives</p>
	<p><i>The objective of the publications is to educate, inform, and give visibility to the YPN through Instagram to reach more people, especially young professionals, and invite them to be part of the YPN.</i></p>
	<p>Description</p>
	<p>The objective of the publications is to educate and inform. Topics were discussed such as water governance, its importance, what is sustainable development goal 6 of "Clean water and sanitation", and what are NGOs? Among other things, World Beach Day was also commemorated and known news such as the awarding of the Honorable Mention for the Selim Yalin Award to Professor José Luis López.</p>

4. Partnerships and collaborations

4.1. Partnerships

Partner organisations and/or interaction with related national organisations

Organisation	Description of partnership
SIHV	Venezuelan Society of Hydraulic Engineering. Participation in an episode of "Conversaciones Fluidas"
FONDONORMA	Ana Vilchez is part of the Well Hydraulics Technical Committee at FONDONORMA that is currently discussing the update of Covenin Standard 589-79 "Code of Practice for the Drilling of Water Wells".
LAD	Dayana Pita was appointed member of the LAD in the Latin American Congress of Hydraulic Engineering in 2022.

4.2. Collaboration with other YPNs

Participation of Dayana Pita, president of our YPN, in the 3rd Hydro-Environmental Challenge of Young Professionals of the AIDH.

This participation was in the Fluvial Hydraulics Challenge whose main objective was to demonstrate the use of engineering models when facing data limitations associated with historical river conditions.

Using measurements stored in the Win-River program, the Manning coefficient of the river under study could be determined.

The team in which Dayana Pita participated was the winner.
