

# 9<sup>th</sup> IAHR Europe Congress

*- Arctic Waters and Beyond -*

Innovating Hydro-Environment Engineering for a  
Sustainable Future

**June 22-26, 2026,**

**Luleå Sweden**

[www.ltu.se/IAHR](http://www.ltu.se/IAHR)

International Association  
for Hydro-Environment  
Engineering and Research

Hosted by  
Spain Water and IWHR, China

**Luleå.** Situated close to the Arctic circle Luleå has 24 hours of daylight in June. Also being at the Bothnia Sea offers the possibilities to relax in the archipelago or along sandy beaches on the coast. It is also easy to travel to the Scandinavian mountains where there are great possibilities for hiking and trekking. There are several National parks where, for instance Abisko offers everything from nice walks for a few hours to trekking for several days. This is also the starting (or ending) Station for the Kings trail. Luleå as a city has a World Heritage a Wooden Church Village and there is a Tree hotel in Harads about 1 hour from the City centre by car. There are a number of nice restaurants with specialities like Reindeer, a special type of whitefish roe and Cloudberryes.
