

IAHR and UNESCO–IHP

IAHR Label for Water Training and Education

Recognising excellence in training and education programs for professionals in the water sector

A flagship initiative of the UNESCO Intergovernmental Hydrological Program (UNESCO–IHP)

What is the IAHR label?

A new labelling system that recognises the **quality of education and training programmes** tailored for the water sector

Context

Urgent action and skilled water professionals are crucial for achieving **SDG 6**. Prioritising their education and training benefits not only SDG 6 but also addresses **climate change, food security, biodiversity, energy transition, and social development**.

Objectives

Recognise institutions promoting and implementing excellence in training and education programmes for competent and skilled professionals in the water sector.

Hallmarks

- A public confidence statement from an independent global water organisation.
- Recognition of quality education and training programmes for the water sector.
- Alignment of education with water professionals' needs.
- Assurance that academic awards meet international standards.

Who can apply

Any institution or organisation providing **vocational training, BSc, MSc and PhD programmes** focusing on water-related education and training.

How to apply?

1. Fill in the **self-assessment report** and a cover page explaining for which programme you are applying.
2. Submit the report to the labelling secretariat at **label@iahr.org**
