

Road to Bari

Connecting Water Challenges, Knowledge and Solutions

Hosted by
Spain Water
and IWHR, China

IAHR.org

- Towards the 42nd IAHR World Congress
- Bari, Italy | 28 June – 2 July 2027

Challenges

Knowledge

Solutions

Road to Bari gives cities, basins and authorities an international platform to define priority water challenges, exchange with peers and connect with the knowledge, solutions and partnerships needed to address them.

Why bring your challenges to Road to Bari?

Shape Priorities

Bring your most pressing water challenges to an international platform shaped by cities, basins and public authorities.

Exchange with Peers

Learn from other authorities facing similar issues and share experiences in a peer-to-peer setting.

Access Knowledge & Solutions

Connect with researchers, experts and solution providers who can help clarify pathways forward.

Build Partnerships & Action

Use Road to Bari to strengthen alliances, identify opportunities and advance implementation.

Challenge table

(Identified by cities & basin authorities)

Digital Water & Decision Intelligence

Harnessing data and digital innovation for smarter decisions.

Climate Adaptation & Extreme Events

Building resilience to climate risks and extreme events.

Water Reuse & Circular Cities

Closing the loop for sustainable and liveable urban environments.

Ageing Infrastructure & Asset Management

Sustainable management and modernisation of water infrastructure.

Basins & Cities

Integrating urban and basin water systems holistically.

Journey

AUG 26
